

SilverCrest Provides Second Quarter Operational Results and Conference Call Details

Record Revenue, Treasury Assets Increased by 34% During the Quarter

TSX: SIL | NYSE American: SILV

For Immediate Release

VANCOUVER, BC – July 11, 2024 – SilverCrest Metals Inc. (“SilverCrest” or the “Company”) is pleased to provide interim operational results for the second quarter of 2024 (“Q2, 2024”) from the Company’s Las Chispas Operation located in Sonora, Mexico. All amounts are expressed in U.S. dollars, unless otherwise noted. Certain amounts shown in this news release may not total to exact amounts due to rounding differences.

Q2, 2024 Operating Highlights

- Recovered 15,303 ounces (“oz”) gold and 1.46 million ounces silver, or 2.68 million silver equivalent (“AgEq”)¹ ounces.
- Sold 14,500 ounces gold and 1.45 million ounces silver, or 2.60 million AgEq ounces.
- Generated record revenue of \$72.7 million with average realized price of \$2,237/oz gold and \$27.84/oz silver, price increases of 8% and 19% respectively from Q1, 2024.
- Ended the quarter with treasury assets of \$122.3 million, including \$98.3 million cash and \$24.0 million bullion.

N. Eric Fier, CEO commented, “We are pleased to deliver another strong quarter in regards to production, grades and recoveries at the Las Chispas Operation. Sales in the first half of 2024 of 5.19 million AgEq ounces position us well to deliver on our 2024 annual sales guidance of 9.8 to 10.2 million ounces AgEq. Silver equivalent processed grades of 765 grams per tonne and recoveries of 98.4% tracked above plan, with silver recoveries setting another record for the operation. This, combined with substantial increases in gold and silver prices in the quarter, drove record revenues and a return to growth of treasury assets in the quarter, despite planned higher sustaining capital expenditures. Also, during the quarter our bullion holdings grew 20% to \$24.0 million through the addition of 400 ounces of gold and increased metal prices. Treasury assets increased 34%, to total \$122.3 million at the end of the quarter, including \$98.3 million in cash. We continue to benefit from having two mining contractors at site, with our financial strength allowing for greater operational flexibility in the ramp-up, including continued management of our stockpiles. We look forward to providing more details of our operational and financial performance in early August.”

¹ Silver equivalent (“AgEq”) ratio used in this news release of 79.51:1 based on the Las Chispas Operation Technical Report, dated September 5, 2023 with an effective date of July 19, 2023.

FORWARD-LOOKING STATEMENTS

This news release contains "forward-looking statements" and "forward-looking information" (collectively "forward-looking statements") within the meaning of applicable Canadian and United States securities legislation. These include, without limitation, statements with respect to: the amount of future production of gold and silver over any period; the strategic plans and expectations for the Company's operation and exploration program; working capital requirements; expected recoveries; expected cash costs and outflows; and the timing of release of the Company's unaudited condensed interim consolidated financial statements for the three months and six months ended June 30, 2024. Such forward-looking statements or information are based on a number of assumptions, which may prove to be incorrect. Assumptions have been made regarding, among other things: present and future business strategies; continued commercial operations at the Las Chispas Operation; the environment in which the Company will operate in the future, including the price of gold and silver; estimates of capital and operating costs; production estimates; estimates of mineral resources, mineral reserves and metallurgical recoveries and mining operational risk; the reliability of mineral resource and mineral reserve estimates; mining and development costs; the conditions in general economic and financial markets; availability of skilled labour; timing and amount of expenditures related to exploration programs; and effects of regulation by governmental agencies and changes in Mexican mining legislation. The actual results could differ materially from those anticipated in these forward-looking statements as a result of risk factors including: the timing and content of work programs; results of exploration activities; the interpretation of drilling results and other geological data; receipt, maintenance and security of permits and mineral property titles; environmental and other regulatory risks; project cost overruns or unanticipated costs and expenses; fluctuations in gold and silver prices; and general market and industry conditions. Forward-looking statements are based on the expectations and opinions of the Company's management on the date the statements are made. The assumptions used in the preparation of such statements, although considered reasonable at the time of preparation, may prove to be imprecise and, as such, readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date the statements were made. The Company undertakes no obligation to update or revise any forward-looking statements included in this news release if these beliefs, estimates and opinions or other circumstances should change, except as otherwise required by applicable law.
