

## SilverCrest Provides Third Quarter Operational Results and Conference Call Details

### Record Revenue, Positioned to Meet or Exceed 2024 Sales Guidance

**TSX: SIL | NYSE American: SILV**

**For Immediate Release**

**VANCOUVER, BC – October 10, 2024** – SilverCrest Metals Inc. (“SilverCrest” or the “Company”) is pleased to provide interim operational results for the third quarter of 2024 (“Q3 2024”) from the Company’s Las Chispas Operation located in Sonora, Mexico. All amounts are expressed in U.S. dollars, unless otherwise noted. Certain amounts shown in this news release may not total to exact amounts due to rounding differences.

### Q3 2024 Operating Highlights

- Recovered 14,928 ounces (“oz”) gold and 1.41 million ounces silver, or 2.60 million silver equivalent (“AgEq”)<sup>1</sup> ounces.
- Sold 15,204 ounces gold and 1.45 million ounces silver, or 2.66 million AgEq ounces.
- Generated record revenue of \$80.4 million, a 10% increase from Q2 2024.
- Average realized prices of \$2,472/oz gold and \$29.48/oz silver, increases of 11% and 6% respectively from Q2 2024.
- Treasury assets increased 29% from Q2 2024 to \$158.2 million, including \$120.9 million cash and \$37.4 million bullion.

N. Eric Fier, CEO commented, “We are pleased to announce another quarter of record revenues, a testament to consistent performance from the Las Chispas Operation, coupled with strong metal prices. With silver equivalent sales of 7.9 million ounces in the first three quarters of the year, we are well positioned to deliver at or above the top end of our 2024 annual sales guidance of 10 to 10.3 million ounces AgEq. Our treasury assets continued to grow with increases to both our cash (up 23%) and bullion holdings (up 56%) leading to an ending position of \$158.2 million.

Ore mined in the quarter increased by 24% from the previous quarter and continues to track ahead of plan as we benefit from maintaining two underground mining contractors. This acceleration of our mining rate has allowed us to increase our operational flexibility. During the quarter, our team successfully performed capacity testing at the plant which resulted in higher throughput for a portion of the quarter. As planned, we expect plant throughput to return to the range of 1,200 tonnes per day for the remainder of the year.

We are proud to deliver another strong quarter of operational results and look forward to releasing our full financial results on November 12, 2024.”

<sup>1</sup> Silver equivalent (“AgEq”) ratio used in this news release of 79.51:1 based on the Las Chispas Operation Technical Report, dated September 5, 2023 with an effective date of July 19, 2023.

## **FORWARD-LOOKING STATEMENTS**

*This news release contains "forward-looking statements" and "forward-looking information" (collectively "forward-looking statements") within the meaning of applicable Canadian and United States securities legislation. These include, without limitation, statements with respect to: the amount of future production of gold and silver over any period; the strategic plans and expectations for the Company's operation and exploration program; working capital requirements; expected recoveries; expected cash costs and outflows; and the timing of release of the Company's unaudited condensed interim consolidated financial statements for the three months and nine months ended September 30, 2024. Such forward-looking statements or information are based on a number of assumptions, which may prove to be incorrect. Assumptions have been made regarding, among other things: present and future business strategies; continued commercial operations at the Las Chispas Operation; the environment in which the Company will operate in the future, including the price of gold and silver; estimates of capital and operating costs; production estimates; estimates of mineral resources, mineral reserves and metallurgical recoveries and mining operational risk; the reliability of mineral resource and mineral reserve estimates; mining and development costs; the conditions in general economic and financial markets; availability of skilled labour; timing and amount of expenditures related to exploration programs; and effects of regulation by governmental agencies and changes in Mexican mining legislation. The actual results could differ materially from those anticipated in these forward-looking statements as a result of risk factors including: the timing and content of work programs; results of exploration activities; the interpretation of drilling results and other geological data; receipt, maintenance and security of permits and mineral property titles; environmental and other regulatory risks; project cost overruns or unanticipated costs and expenses; fluctuations in gold and silver prices; and general market and industry conditions. Forward-looking statements are based on the expectations and opinions of the Company's management on the date the statements are made. The assumptions used in the preparation of such statements, although considered reasonable at the time of preparation, may prove to be imprecise and, as such, readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date the statements were made. The Company undertakes no obligation to update or revise any forward-looking statements included in this news release if these beliefs, estimates and opinions or other circumstances should change, except as otherwise required by applicable law.*
